2022

The Company is
**listed on the
Stock Market**

Duro Felguera
**manufactures capital
goods**

The company adopts
its **current name:**
Duro Felguera, S.A.

DF is **restructured** into 5
business divisions with a **special
focus** on renewable energies,
the hydrogen vector and smart
systems.

OUR BUSINESSES

Broad and highly specialized commercial offer with extensive international presence

DF MOMPRESA

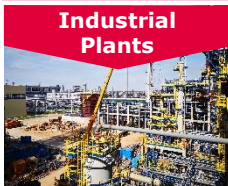

ENERGY

- Power plants
- Distributed power, cogeneration
- Substations and transmission lines
- Waste-to-Energy
- Desulphurization and denitrification

INDUSTRIAL PLANTS

Industrial Plants

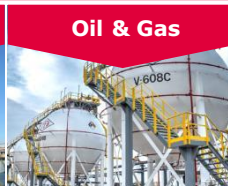

- New production plants
- Expansions and revampings of existing plants
- Decarbonisation of industrial processes
- Integration of proprietary technology plants (ammonia, fertilisers, methanol...)

Mining & Handling

- Mineral processing plants
- Port terminals
- Truck and train dispatch systems
- Storage and homogenization yards
- Biomass and alternative fuel handling

Oil & Gas

- LNG regasification tanks and terminals
- LPG storage terminals (spheres and cryogenic tanks)
- LPG and hydrocarbon terminals
- Refining process and petrochemical units
- Ammonia plants and salts tanks

Pressure Vessels

- Pressure Vessel Manufacturing
- Reactors, Columns, Separators, Coke Drums
- Storage vessels (LPG, LNG, H₂, CO₂, Ammonia)
- Process units
- Modularised construction

DF GREENTECH

- Photovoltaic and thermosolar plants
- On-shore wind farms
- Green hydrogen
- Energy storage
- Biogas & biofuels
- Hydraulic and wave power
- Structures for off-shore wind farms

SERVICES

- **Assembly and overhaul of turbogenerators and auxiliary rotating equipment in any type of power generation plant or industrial installation.**
- Turbine maintenance and overhauls
- Operation and maintenance
- Electromechanical facility assembly and insulation

SMART SYSTEMS

- Security, defence and cryptography
- Logistic systems for storage
